

Speaker Profile: -

# RENGANATHAN. P

---

There is a proverb “Old enough to know better, Young enough to do it anyway”.

Mr. Renganathan, our speaker exactly lives to this proverb. An entrepreneur at a young age in the field where few dares to venture into. He is Founder & CEO of R Protocols- a cyber security start-up and a content creator with an astounding audience of 450 plus students & working professionals.

Mr.Renganathan is an ethical hacker and a cybersecurity researcher who has secured many organizations like LinkedIn, BYJUs, United Nations, Canva, Indian Government, Mx player, Indeedworks, Neverskip Software Solutions and Accenture by reporting vulnerabilities in their IT infrastructure and services.

He is knowledge in Vulnerability assessment, Penetration testing / Bug hunting, Cybersecurity Awareness, Computer Forensics, Networks & Network Security, Digital Marketing, Entrepreneurship and Marketing strategy.

Various organizations have acknowledged his effort and support in ensuring a safe organization and his Hall of Fame board continues to expand.

He has received many Certifications and Licenses which include Computer Forensics investigation, Computer Network Society- Udemy, Fundamentals of Digital marketing from Google, Ethical hacking from zSecurity to name a few.

Mr. Renganathan will present his session on Social Engineering – The Art of Deception.
